THE Spanish Authorities are about to at tempt the subjection of Sulu. For a longtime past the inhabitants of the Visayas have suffered severely from the piratical attacks of the people of Sulu. The Spanish Authorities have resolved to put an end to the depredations of these pirates. "The Island of Sulu is,"-says El Oriente, "a stain of blood and filth in the midst of these peaceful seas. We are going to crase this stain with cannon." It is not our intention to go into the merits of the quarrel between Spain and the Sultan of Sulu; there are, very possibly, faults on both sides; but there is no doubt that the people Matheson & Co., at East Point, was charged of Sulu have been guilty of many atrocities, and it is impossible not to wish the Spaniards in their attempt to settle this much vexed question. It may be admitted that the Philippines are woofully misgoverned, but Spanish rule is better than lawlessness. Besides, the Sulus have become in the Southern Seas, and it is certainly expedient that some civilised Power should undertake the task of subduing them and teaching them to respect the property of others. Spain is, of course, chiefly interested, for her possessions are in immediate contiguity to the Sulu Archipelago. The spelling of his various names is, with not a few, sufficiently a matter of perplexity, if not of important interest, to justify the following statement. On the coin on which is stamped his face and bust, the Intin inscription gives the name in this form: "Michael Angelus Bonarrotus," and the general spelling therefore is Michael Angelo Buonarroti. Nevertheless, we not unfrequently find the following variations of the patrony nic-Buonarott Bonarroti, and Buonarruoti, and there is doubt that the proper Italian form of the Christian name is Michel Agnolo, and bi own signature is in this form-Michelagnol Buonarroti. His father destined him for one of the learned perfessions, and sent him to a grammar school in Florence. But the boy's bent was so plainly in the way of design, that, after not a little unwilling hesitation, his father apprenticed him for hree years as a pupil of Ghirlandalo at that time the leader among the Florentine she should "offend artistic taste, or blazen painters. Each person attending the funeral should wear only a plain black band of medium width of crape for relations, of cloth for friends around his hat, black gloves, and a whiterose of camellia in the buttou-hole of his coat. He wished the ceremony to be as much as possible free from all gloomy associations, and that it should be considered more an occasion for rejoicing than mourning, in accordance with Holy Scripture.
